

# Commissioning Agent

## **Location: Winnipeg, MB**

Integrated Designs is a fast-growing sustainability consulting and project management firm that is looking for a Commissioning talent to help us with our growing workload in **Building Commissioning**.

We are a unique firm that nurtures the life goals and passions of our employees so that they will grow with us. If you are interested in joining a really cool company, we'd love to meet you.

## **Desired Experience and Professional Qualities:**

- Minimum 2 years with commercial construction and building mechanical, electrical and control systems
- Ability to assist in all aspects of a project, including interpreting plans and specifications, writing test procedures and documenting systems tests
- Strong communication skills, including analytical, technical writing, team building, collaboration and problem solving
- Knowledge of the LEED certification process is an asset
- Knowledge of Energy Management and Retro-Commissioning would be considered an asset
