

# Regina Provincial Correction Centre

The Regina Provincial Correction Centre project involves the construction of a high-security facility, with sustainability in mind.

Budget: \$30,000,000

## CONSULTING SERVICES

Responsible for the implementation of LEED-certified best practice and fundamental commissioning

## PROJECT HIGHLIGHTS

- One of very few correctional facilities targeting LEED certification
- Incorporates high commissioning agent involvement in the conceptual, schematic, and end design phases, meeting LEED Best Practice Commissioning requirements
- Innovative radiant-in-slab wall heating in occupant cells
- Heat recovery where possible, accounting for tear-gas discharge and other security considerations
